

HORDES OF CHAOS

v5.1

Hordes of Chaos is **not** an Army list in its own right. It is a confederation of Chaos troops from the Warriors and Chaos and Chaos Daemon lists. The following rules must be obeyed.

- Minimum of compulsory troops & camps in both lists must be taken.
- Each command must either be **Daemonic** (Chaos Deacons) or **Mortal** (Warriors of Chaos)
- An army which follows a single Chaos God can mix both **Daemonic** and **Mortal** within the same command
- Rules and spells that apply to a **Mark of Chaos** apply to both **Mortal** and **Daemonic** troops
- **Mark of Chaos Undivided** is not allowed for a **Mortal** command.
- Where a combined Army has **Mortal Followers** then they take the **Acolyte** characteristic instead. The cost remains the same but they do not get the benefit of losing -1 VM when destroyed.

Army Trait

Chaos Unbound

The Hordes of Chaos army must surrender 1 victory medal before the battle begins. In addition they get the traits from Warriors of Chaos and Chaos Daemons. If the army follows a single god and contains Mortals and Daemons then they do get the Realm of Chaos Army trait
